Digital made simple

Why settle for just a website when you can have an ecosystem with Govstack?

→ Why should I change my website now?

Remember having to submit a ticket to make the simplest of changes to your site, and then having to pay for those changes? With Govstack, you're in control of your CMS (Content Management System). Change your layouts, fonts and colours, create dynamic landing pages, and control your navigation all with a single sign-on.

→ This is not in my budget.

Not a problem. Our deferred payment plan is aligned with your budgetary cycle so that you can get what you need now and pay for it later.

→ How is support going to improve?

Govstack is a new product, built on leading technology that solves some of the underlying issues you may have experienced with i:Create. All Govstack clients will be using the same version of the solution, making it easy for us to consistently service and support it, and making it easier for you to benefit from new features and product releases.

→ What added value does Govstack provide?

Govstack is a digital ecosystem built on a powerful website builder and CMS that we will continue to enhance with valuable third-party integrations and proprietary tools which can easily integrate with your own systems to widen the range of your service delivery options.

Govstack™ features summary

- **Flexibility** that puts you in control of your CMS, making it easy to customize your layouts, add third-party scripts, add or remove sections, and enhance your branding without third party intervention.

- **Scalability** to grow with the demands of your organization and needs of your residents.

- **Affordability** through a deep discount and a deferred payment plan that aligns with our client's budgetary calendar permitting you to Pay Next Year.

- **Support** from a dedicated team of professionals who will work closely with you to help give your residents a superior digital experience.

- **Security** through Microsoft Azure cloud-based hosting for better overall performance.

- **Ease of maintenance** due to a more modern infrastructure that evolves with the needs of your organization.

↳ Don't have time? Welcome to implementation done quickly.

The Govstack implementation plan has accounted for your time challenge with a faster, more efficient process that takes a fraction of the time when compared i:Create. In fact, you could be up and running on Govstack by investing as little as 25 hours of your time.
